Company has been formed is to supply | day of Fabruary instant, both days inclusive. the city of Victoria, Kowloon and the Peak with the ELECTRIC | IGHT. A subsidiary object is the supply of electric motor power wherever it may be required, and negotiations are now being carried on with the Government to supply the necessary power for pumping water from the Albany Tank to a reservoir or tank to be established at the Peak.

The advantages of the Electric Light are so well recognised that but little need be said on the subject. It is, however, peculiarly adapted for use here on account of its being almost entirely free from heat and unaffected by wind, and also on account of its almost perfect freedom from danger

Estimates of working expenses, cost of supply, &c., have been carefully gone into, and the Directors have no doubt that the light can be supplied at rates which will compare favourably with the price paid for gas in the Colony, while for quality, power and convenience, the light will be much superior to any other kind of lighting.

In the estimates are included cost of sufficient engine power, plant, &c., for Electric Street lighting on the well known Arc System. Negotiations, with a good prospect of success, are being carried on with the Government for a contract for this purpose. A very suitable site for the Engine house required for the Machinery has been purchased and will be made over to the Com-

pany at cost price. It is proposed to order from Eszland at once the necessary plant and dynamos on the latest and most approved principle adopted in England and America. The London Electric Supply Company are at present engaged in installing in London a plant to supply 250,000 lights on this

The Income will of course depend much on the number of lights supplied, but as the price will be, light for light, less than gas, there can be no doubt that the electric light will be generally adopted. If but 3,000 burners are made use of, it is believed that the Company will be able to pay a satisfactory dividend, and the dividend will increase with the increase in the demand

for the light. The value of the shares has been fixed at \$10 with the view of bringing the shares within the reach of all of the community who are likely to use the light, and who will thus have a better opportunity of becoming shareholders than if the shares were of a higher value. It is intended that as wide a distribution of the shares shall be made as possible.

No promotion money will be paid. For prospectus and for forms of application for shares, apply to the HONGKONG AND SHANGHAL

83 Mn Wodehouse held an inquiry at the Magistracy to-day into the circumstances connected with the death of Kwok Yat Fai, a billiard-marker employed at the Deven, second son of John Smith Brains, Hongkong Club, who was found drowned on Monday morning. James J. Clerihew. Inspector of Nuisances, said: About 6.10 on the morning of 28th Jan., I had occasion to go to the Salyingpun Nullah. At the mouth of the Nullah I found the dead body of a Chinaman lying face down. He was fully dressed. The water was only about five or six inches deep where he was lying. The whole length of the body was in the water. which was just awash with his back. A quantity of rubbish was floating above the body, and it was on removing this that the body was discovered. The only mark about the body was a slight bruise on the nose.-Chun Sun Hing said: I am a billiard-marker employed at the Hongkong Club. The deceased was also a billiard. marker there for more than a year. I last saw him at six o'clock on the evening of the 27th, in the Club. There appeared to be nothing wrong with him then. He lived at the Club. He did not aleep there that night. I went to the bowling-alley where he slept, to put out the lights at twelve o'clock, and he was not there. - Kwok Yat Sam said: I was once employed as bartender in the Hongkong Club. Deceased was my cousin. He was married; his wife lives in the country. I don't know any reason why he should have gone down to Saiyingpun that night. -- Inspector Mackie said: I am in charge of this case. The Nullah in question is near my station. I have made inquiries into the case. I am not aware of any suspicious circumstances. I haw the body when it was being examined by Dr Marques. The only mark to be seen was the slight bruise on the noise. Dr Marques is of opinion that the cause of death was drowning. It is supposed the deceased had fallen into the water. The tides have been very high of late and the evenings very dark.—Kwok Yat Sam (recalled) said : My cousin came to see me occasionally. He last came to see me on the 27th, in the afternoon. He was in good spirits. I know of no reason why he should commit suicide.—Inspector Mackie said there was no property of value found on the person of

The competition was for the usual Challenge Cup, which was supplemented on this occasion by a second prize, presented by Major A so-called Russian religious mission Tripp. The corps mustered to the number of 35. Major Tripp was in command, and the other officers were Captain McCallum. Lieut, Woolley, Lieut. Holmes, and Lieut. Denson. On arriving at Stonecutters' Island the corps was formed into two detachments, each being allotted one gun. The practice was with 64-pounders, and the range between 1.000 and 1,100 yards. Earl of Rosebery have been returned for Three trial shots having been fired from each gun by Major Tripp and Captain McCallum, the regular firing commenced. The target, which was of the usual kind. consisting of a barrel placed on a floating frame-work and surmounted by a flagstaff and flag, began to get knocked about at a very early stage of the proceedings, nearly every shot telling on it. In the opinion of military observers no practice of equal excellence has ever been seen here, and it is believed there was not a shot fired yesterday that would have failed to hit had a ship been the object fired at. The damage done to the target being quite beyond what was expected and what was provided for, a good deal of delay occurred in renewing it so frequently, and latterly the competitors had to be contented with the barrel alone as a mark. A number of visitors, including some ladies, witnessed the shooting. ONE of the largest conflagrations which have occurred in Rangoon for some time past broke out at an early hour on the 6th January. Soon after midnight an alarm was raised by some Burmans residing in 19th Street noticing flames issuing from one of the houses. Aided by a strong breeze from the river, the flames increased. till it became evident that the combined efforts of the firemen to save the block of buildings between 19th Street and Latter Street would prove futile. Before it was suppressed the premises of the Burma Herald Press were entirely gutted out The loss is estimated at from 5 to 6 lakhs of Rupees, which will fall heavily on the Chinese and Burmese inhabitants of the town; the whole property, with the exception of two or three houses, being uninsured. - Rangeon Times.

THE Japan Gazette of 24th ult. says :- In our last night's issue we culled from the China Mail a report referring to a Mr R. C. Passmore recently chief officer of the Pingchin; and Kai-pan, who endeavoured to slip away from his creditors in Hongkong by the Caledonien. Foiled in that attempt, he however managed to get off by the Abussinia, en route for Europe, under the alias of Mr Nugent. Just before the Abysinia's time for departure a constable from the English Copsulate boarded the boat with a warrant for the detention of Mr Passmore, alias Rogers, alias Nugent, and although given every assistance by the captain and officers of the ship he was unable to discover the object of his search. ENGLISHMEN SWINDLED. London, January 4.—Several months ago the electric sugar scheme was brought over from America, and its promoters announced that the sugar trade would be revoluionized, but the conservative Britishers were not to be caught by this bait, and the Stock Exchange official list did not extend its patronage to the company. At Liverool, however, the promotors achieved more success. On December 3rd a public exhibition was given and gallons of molasses were apparently conver ed into fine white sugar by the electric process. On December 4th the price of the shares opened at £110 per share and gradually rose to £117, after which the fluctuations became wide. and the closing pric was £107. After this the price dropped during the daily sales until it reached £80. At the opening yesterday muschievons row more were affort, and every one wanted to sell.
